Use **chat** function for questions

Main Question

I would like any addition feedback/suggestions with resources and/or services that client may benefit from. He struggles with accepting help and services after he assist with identifying the need and agrees to receive the help.

Demographic Information

Client is a 58 year old, African American male. He has graduated high school and has some college. He is a veteran. He currently works at a local store. He currently resides in a sober living environment. He has limited social support from his immediate family, however, he reports supports from friends.

Background Information

He has long history of using cocaine and alcohol. No history of mental illness. No currently medical issues and/or medications. Prior inpatient treatment twice while in this program due to relapse. No prior tx before program. Clean since return to the Program. He has a hard time accepting help and it make it a barrier to his care.

Previous Interventions

He completed inpatient tx twice.

Plan for Future Treatment/ Patient's Goals

To assist with maintaining his abstinence and connected to recovery. He shared that he wants long term sobriety.

Case Studies

- Case studies
 - Submit: www.vcuhealth.org/echo
 - Receive feedback from participants and content experts
 - Earn **\$100** for presenting

Thank You

The success of our telehealth program depends on our participants and those who submit case studies to be discussed during clinics. We recognize the following providers for their contributions:
